

ELYSIAN

RESIDENCES

We would like to share some of our early thoughts for our site at the University of Law campus, located off Portsmouth Road in Guildford, which we acquired once they had decided to move.

Our initial vision is for a development that will provide a range of much-needed new housing with care and amenities, which will support local businesses, whilst preserving and enhancing the surrounding heritage, green space and local ecology.

Your thoughts matter to us and we hope that you can attend our in-person or online exhibitions to share your ideas, feedback and insight to help us shape our vision for an inclusive residential community for residents, neighbours and the local community.
